Forensic A&E

The thorough, reliable evaluation of a building demands a multidisciplinary services firm. Identifying a building issue is one thing, resolving it is another. Architectural and engineering resources are often required, as well as in-depth experience and a solid understanding of the business concerns involved. Expertise in environmental sciences may be needed.

That's why thousands of clients have turned to GLE for building assessment services. With GLE, you have a single partner who can evaluate your buildings and properties, identify issues and develop cost-effective solutions that can be implemented immediately. As a full-service A&E design, consulting and environmental services firm, we have the expertise to address any aspect of a facility.

Our assessment services provide clients with a detailed understanding of immediate needs and deferred maintenance. Our licensed architects and engineers conduct thorough assessments of buildings, providing a comprehensive report detailing every area of concern.

We also offer specialized services such as roof consulting, forensic A&E, and ADA consulting to assist our clients with their facilities management program.

GLE works hard to ensure that assessments and repairs are conducted with minimum disruption to your operations. We are committed to providing important findings to you quickly.

Focused on your success.

And we have extensive experience supporting our clients in public relations issues, including presentations to the media, management, occupants and governmental agencies.

**Facility and property managers** count on GLE for our technical knowledge and business acumen.

**Property owners** like the fact that we can assess the damage, design cost-effective solutions and use our in-house experts to complete even the most complex projects.

**Public sector clients** appreciate our expertise working within fixed budgets and our ability to provide cost-effective, practical advice. GLE has evaluated thousands of educational and governmental facilities.
