When you have a project to build or a problem to solve, you want solid engineering solutions that meet your goals and objectives. With GLE, you have a highly responsive engineering partner.

We combine expertise, ingenuity and business acumen to deliver solid, constructible solutions designed to maximize the value of your property while minimizing your long-term operations and maintenance costs. We are on the forefront of the latest technologies to give you the best possible engineering advice.

You also benefit from the fact that GLE is a full-service architecture and engineering design, consulting and environmental services firm with a full range of expertise available to meet your project needs. If you're renovating a building with complex environmental issues, you'll find we are one of the only firms with complete in-house design and environmental consulting.

Property owners and developers appreciate our ability to provide practical, constructible designs that ensure the best possible business outcome for our clients. We focus on maximizing property value on both new construction and the renovation of existing properties.

Commercial property managers know they can rely on GLE as their one-stop source to diagnose problems, design cost-effective solutions and quickly implement the right fix – while minimizing disruption to employees, tenants and customers. When you select GLE, you have all the resources of an A&E design and environmental firm.

Focused on your success.

General contractors like our proven ability to help them bring projects in on time and on budget, listening carefully to their input, solving problems and generating ideas. Our goal is to ensure that the general contractor and engineering teams work together smoothly and seamlessly.

Public sector clients appreciate our expertise working within fixed budgets and our ability to provide cost-effective, practical advice. GLE has designed thousands of educational and governmental facilities. We know how to innovate within your cost structure while meeting your needs for lower on-going operations and maintenance costs.

Since 1989, GLE has designed thousands of commercial, educational, governmental, housing, aviation and healthcare facilities. Count on GLE for integrity, practical expertise and innovative engineering solutions.

Discover the GLE difference

Work with GLE and you'll enjoy what thousands of clients have already come to appreciate: unlimited access to our top management and senior consultants, 24/7. All focused on your success.

Take the next step
