Since 1989, GLE Associates has assisted our Federal clients by providing cost effective and timely solutions to complex environmental, industrial hygiene, building forensics and construction challenges. Our federal teams have demonstrated experience, technical expertise, and consistent excellence in project execution and delivery. GLE is classified as a small business under NAICS code 562910.

PRESIDENT & PRINCIPAL-IN CHARGE

Robert B. Greene, PE, PG, CIH, LEED AP

Served in architecture, engineering, environmental consulting, and general construction arenas for 42 years. President of GLE since 1989. Managed numerous construction administration, consulting, and design projects for public and private sector clients throughout the United States. Served as expert witness for litigation involving environmental and construction issues.

VICE PRESIDENT, DIR. OF WEST FLORIDA OPERATIONS

Edmund Smith, CHMM, CIEC

With GLE for 24 years. Successfully performed and managed a myriad of environmental, industrial hygiene, and construction projects for various private and public sector clients. Current responsibilities include oversight and management of West Florida Operations, comprised of a diverse group of architects, engineers, and environmental professionals.

VICE PRESIDENT, DIR. OF SOUTH FLORIDA OPERATIONS

John Simmons

Over 36 years of experience. GLE's Director of South Florida Operations. Manages the daily operations, client relations, business development, and contract negotiations. His experience in the environmental consulting services field includes a diverse background in facilities consulting, contracting, general construction, environmental remediation, and environmental compliance.

VICE PRESIDENT, DIR. OF NORTH FLORIDA OPERATIONS

James Elliot, PE, LAC, LEED AP

Directs GLE's North Florida Operations, consisting of offices in Jacksonville, Gainesville and Orlando, Florida. More than has 27 years of experience directing and managing environmental, and facilities consulting projects.

DIRECTOR OF ATLANTA OPERATIONS

Kerry Borders

23 years of environmental due diligence experience. Director of Atlanta Operations for GLE, ensures all projects within Branch operations have the appropriate level of resources, and each project is performed on time and within budget.

DIR. OF STRATEGIC DEVELOPMENT & FEDERAL PROGRAMS

Bradley G. Bowman, PMP, LEED AP

Executive Operations Leader with over 20 years of demonstrated and diverse leadership experience. Has a proven track record of successful strategic and tactical leadership and proven BD experience within multi-discipline, full-service A/E, environmental, geo-technical and infrastructure consulting operations serving the Federal, Healthcare, Higher Education and Transportation markets.

PRINCIPAL CERTIFIED INDUSTRIAL HYGIENIST

Michael Collins, CIH, CSP, CIEC

23 years of experience in planning and managing complex health, safety, industrial hygiene, and environmental projects and investigations.

CONSTRUCTION CONSULTING SERVICES MANAGER

Jill Hanson

Involved in numerous aspects of the construction industry for 24 years. Experience at GLE initially involved serving as Project Administrator in GLE's Construction Services division. She later moved into the Building Assessment and Construction Consulting Division and now serves as department manager.

GLE services contracted from the offerings in the GSA catalog can be delivered based on hourly rates or on a firm fixed price (FFP) order basis. The total price will be determined at the time of the order and will be based on the prices listed in Table 1 - Labor Category and Hourly Rates, below.

If the agency Contracting Officer chooses to purchase from the SINs listed on a labor hour (LH) time and materials (T&M) basis, the resultant task/delivery order shall specify the Not-to-exceed price, the labor, Categories proposed, and any Other Direct Costs (ODCs). Travel related costs will not be marked up. The rates listed in Table 1 - Labor Category and Hourly Rates will Apply to SINs 541620 and OLM.

TABLE 1 - LABOR CATEGORY & HOURLY RATES

| SIN | Labor Category | Typical Minimum Qualifications | Hourly Rates |
|------------------|--|--------------------------------|--------------|
| 541620, 541620RC | Principal Architect (Registered/Licensed Architect) | BA plus 15 yrs exp. | 164.58 |

| Administrative II | 01611 – Word Processor I | 2015-4535 |
| Administrative I | 01460 – Switchboard Operator/Receptionist | 2015-4535 |

The Service Contract Labor Standards, formerly the Service Contract Act (SCA), apply to this contract and it includes SCLS applicable labor categories. Labor categories and fixed price services marked with a (**) in this price list are based on the U.S. Department of Labor Wage Determination Number(s) identified in the SCLS/SCA matrix. The prices awarded are in line with the geographic scope of the contract (i.e., nationwide).

BACKGROUND

Since 1989, thousands of clients have trusted GLE to guide them in the evaluation, design, and construction of environmental solutions for buildings and properties. Our extensive line of in-house services makes us an ideal partner in all environmental engineering and consulting projects.

A full-service environmental consulting, industrial hygiene, and construction consulting firm, GLE is licensed to provide environmental consulting services including asbestos and lead, environmental consulting, industrial hygiene and construction consulting services. GLE is highly experienced in performing environmental consulting in accordance with all EPA, OSHA, HUD, and applicable state regulations.

MULTI-DISCIPLINARY SERVICES

ENVIRONMENTAL

- Asbestos
- Lead-based Paint
- Mold
- Indoor Air Quality
- Radon
- Environmental Due Diligence - Phase I & II
Environmental Site Assessment (ESA)
- Water Intrusion
- Contamination Assessments
- Remediation Design & Remedial Action Plans
- Turnkey Remediation, Abatement, and Construction
- Operations and Maintenance
- Underground Storage Tank (UST) Closure & Removal
- CERCLA Site Assessment

BUILDING FORENSICS

- Building Envelope Assessments
- HVAC System Evaluations
- Repair/Remediation Plan Preparation
- Water Intrusion Investigation
- Structural Assessments
- Cost Estimates
- Mold and indoor Air Quality Forensics
- Thermal Imaging

CONSTRUCTION CONSULTING

- Capital Needs Assessments
- Plan and Cost Analysis
- Construction Monitoring
- Owner's Representative Services
- Condition of Building Components
- Necessity of Repair & Replacement
- Estimated Repair Cost
- Capital Reserve Analysis
- Handicap Accessibility Consulting/Assessments

INDUSTRIAL HYGIENE

- Industrial Hygiene Assessments
- Noise Surveys
- Occupational Health and Safety Training
- Workplace Air Monitoring Surveys
- Emergency Response and Health & Safety Plans
- Confined Spaces
- OSHA and Other Regulatory Compliance Assessments
- Hazardous Waste Site Monitoring
- Respiratory Protection
- Sick Building Syndrome (SBS) Investigations

TECHNICAL CAPABILITIES

Our extensive bench strength includes licensed professionals who perform asbestos hazard identification and assessment, lead-based paint (LBP) hazard identification and assessment, regulatory compliance, response actions, and asbestos and lead management. Our team also includes asbestos contractors, supervisors, designers, and consultants; lead inspectors, risk assessors, and project designers; Certified Industrial Hygienists (CIHs); registered architects; engineers; geologists; and EPA-accredited project monitors.

Our staff's extensive expertise and experience enables us to provide effective solutions to occupant safety, budgetary, time constraint, and public relations issues that are unique to the public sector. Our size and resources enable us to provide analysis of single-building elements or entire buildings and campuses as part of our services.

ENVIRONMENTAL CONSULTING

Asbestos

GLE offers complete asbestos consulting services. GLE has a long history conducting asbestos services and is the recognized leader in the Southeast for asbestos management. Our staff of asbestos consultants, EPA-AHERA certified building inspectors, contractor supervisors, management planners, designers, project managers and industrial hygienists have extensive experience providing cost effective asbestos management services to public school system clients. Asbestos management services offered by GLE include:

- Drawings and Specifications
- Ambient Air Monitoring (using NIOSH 582 trained and equipped industrial hygiene technicians)
- Contract Administration/Estimating
- Facility Surveys and AHERA Inspections
- In-House Laboratory Analysis
- Operations & Maintenance Plans
- Risk Management/Hazard Assessments
- Training of Custodial & Maintenance Personnel
- Employee Awareness Training
- Cost Recovery Services
- Respiratory Protection Programs

Lead-Based Paint Consulting Services

GLE provides total lead-based paint (LBP) management from survey through abatement. A typical LBP project begins with an initial survey, then thorough LBP testing and evaluation, through abatement design and implementation. Our services include:

- Inspections
- XRF Spectrum Analyzer Testing
- Laboratory Analysis for Lead in Air, Water, Soil and Dust
- Air Monitoring
- Risk Assessments
- Interim Control Development
- Operation and Maintenance Plans
- Plans and Specifications for LBP Abatement
- Construction Management/Construction Administration

Mold Assessments & Remediation Design

GLE helps clients address mold concerns quickly, offering the blend of expertise needed to develop responsible, cost-effective solutions that make sense for each client. With a highly qualified team of mold experts and more than a decade of experience solving indoor air problems, GLE is leading the field of mold assessment and remediation design. Our extensive practical experience, combined with a strong base of biological and structural expertise, helps ensure mold issues are addressed properly, greatly minimizing each client’s financial risk.

Indoor Air Quality

GLE provides indoor air quality services to evaluate health hazards associated with occupied environments. Our full staff of engineers and industrial hygienists has specific experience in indoor air quality (IAQ) evaluations; led by four (4) Certified Industrial Hygienists with extensive experience in IAQ. We can evaluate symptoms, determine the existing contaminants and prepare remediation plans. GLE’s IAQ services include:

- Sick Building Syndrome Assessments
- Building Surveys
- HVAC Evaluations
- Moisture Evaluations
- Ambient Air Monitoring
- Sampling and Testing
- Health and Safety Training
- Corrective Action Implementation
- Project Management
- Public Relations

Radon

GLE provides certified radon measurement and radon mitigation services that consist of the following:

- Building Surveys
- Mitigation Design and Construction
- Concentration Level Assessments
- Facility/Soil Measurements for Real Estate Transactions and New Construction

GLE has performed radon services for numerous clients, including several school boards and government agencies. Our familiarity and experience with statutory requirements for radon measurement testing and reporting has enabled us to develop a streamlined process, resulting in improved efficiencies and lower costs.

Assessment/Remediation Services

GLE's offices are staffed with professional engineers, geologists and senior scientists, who have extensive experience in the assessment of property impacts (e.g. petroleum, solvents, hazardous materials), identification, evaluation and selection of remediation treatment technologies for cleanup of a property. GLE can provide the following environmental cleanup services:

- Site Assessments and SAR Preparation
- Remedial Action Plan Preparation (LSRAPs and Full RAP Preparation)
- Bid Package Preparation and Bidding Services
- Contract Preparation and Negotiation
- Remediation System Installation/Construction (RAC)
- Remediation System Operation & Maintenance (O&M)
- Well Sampling and Site Monitoring (PARM)
- Site Reconstruction to Pre-Cleanup Conditions

INDUSTRIAL HYGIENE

Led by four (4) Certified Industrial Hygienists, GLE provides comprehensive IH consulting services including but not limited to: Safety Audits/Assessments, Evaluation of Safety Plans, Personnel Sampling & Monitoring, Asbestos/Lead Surveys and Abatement, and Indoor Air Quality Assessment & Remediation.

GLE offers the expertise of a team of industrial hygiene and occupational health and safety consultants and technicians to help clients develop and implement thorough, cost-effective industrial hygiene programs that meet all EPA, OSHA and other related regulations. We can conduct comprehensive sampling and analysis for a broad range of airborne contaminants, including metals, organics, silica, toxic gases and vapors, particulates, asbestos and other fibers, dust, acids and welding fumes. Our in-house analysis of workplace contaminants is backed by our stringent quality assurance controls. Our team of CIHs, scientists and professional engineers are also experienced in monitoring and assessing worker exposures to physical agents, including noise, ionizing and non-ionizing radiation and heat stress. We also provide consulting services in testing, sampling, analysis and risk assessment. GLE can provide the following industrial hygiene services:

- Industrial Hygiene Assessments
- Noise Surveys
- Occupational Health & Safety Training
- Workplace Air Monitoring Surveys
- Emergency Response and Health & Safety Plans
- Confined Spaces
- OSHA and Other Regulatory Compliance Assessments
- Hazardous Waste Site Monitoring
- Respiratory Protection
- Sick Building Syndrome (SBS) Investigations

GLE's experience providing Industrial Hygiene and Safety assessments typically includes housekeeping and hygiene practices. Our team of industrial hygienists is skilled at observing site conditions for material storage, handling, and cross contamination into clean areas.

CONSTRUCTION CONSULTING

As a recognized construction consulting leader, GLE has provided comprehensive environmental engineering and building sciences consulting services for the past 32 years. Representative clients are both public and private sector organizations, and their projects involve new construction, as well as complex renovations. Project-types include multi-family residential, commercial, office, industrial, educational, religious and laboratory construction, totaling over \$175 million in construction costs over the last five years.

BUILDING FORENSICS

Identifying a building issue is one thing, resolving it is another. A thorough and reliable building assessment demands a multidisciplinary services firm. Both architectural and engineering expertise is often required during property inspections, as well as in-depth experience and a solid understanding of the business concerns involved. Expertise in environmental sciences may also be needed.

Property Condition Assessments

GLE's property condition assessment services provide clients with a detailed understanding of immediate needs and deferred maintenance. Our licensed architects and engineers conduct thorough property inspections, providing a comprehensive report detailing every area of concern. We also offer specialized services such as roof consulting, forensic A/E, and ADA consulting to assist our clients with their facilities management program. GLE can identify issues and develop cost effective solutions that can be implemented immediately. As a full-service A/E design, consulting and environmental services firm, we have the expertise to address any aspect of a facility.

FEDERAL EXPERIENCE

For more than 30 years, GLE Associates has assisted our Federal clients by providing cost effective and timely solutions to complex environmental, industrial hygiene, building forensics and construction challenges. Led by our team of Professional Engineers (PE), Professional Geologists (PG), and four (4) Certified Industrial Hygienists (CIH), our Federal teams have demonstrated experience, technical expertise, and consistent excellence in project execution and delivery.
